# blue moonshine

## 1 the music

Blue Moonshine is hot fiddle and mandolin leads and four-part harmony big enough to knock your socks off. Blue Moonshine is memorable original tunes, traditional bluegrass & old-time favorites, scorching gypsy jazz instrumentals, and mountain music interpretations of songs from artists like Neil Young and the Outfield.

Bluegrass has rapidly grown in popularity since 2000's *O Brother Where Art Thou?* and Blue Moonshine's music is a contemporary take on a traditional sound that your crowd will love.

## 2 the show

Blue Moonshine puts on a professional show. Even though the band has only been together four years, its individual members have collectively notched over 800 gigs as both solo and band artists. Their seasoned stage presence and the obvious fun that the group has making music together translates into entertainment, not just live music.

## 3 the relationship

With three big sets of music to keep your crowd's toes tapping and the thick vocal harmonies that form Blue Moonshine's signature sound, you've got your next crowd favorite right here in your hands. The band connects with an audience, and works to generate a rapport that keeps the crowd's attention all night and gets them back to the next gig. Blue Moonshine believes in cultivating relationships with both fans and venues so that everyone wins, and everyone involved can't wait until the next show.

To bring Blue Moonshine to your venue, call Phil Norman @ 540.982.0032 or email [bluemoonshineband@gmail.com](mailto:bluemoonshineband@gmail.com)
